## Product introduction

Each slat is made of environmentally friendly wood panels and formaldehyde-free, sound-absorbing polyester panels. The combination of wood slats and acoustic felt can effectively absorb echoes in the space while enhancing visual beauty. The surface can be customized according to customer needs melamine, veneer, PVC and HPL finishes.

# PRODUCT ADVANTAGE

## SOUND ABSORPTION

Our wooden slat wall panel offers Class A sound absorption, will absorb the sound waves and remove reverberation, creat a quieter, more comfortable space for you.

---

## SUSTAINABLE MATERIAL

Wooden slats is made from recycled material, with FCS test report, and the felt is made from recycled plastic bottles, with GRS test report.

---

## FIRE RESISTANCE

The interior acoustic panel will be safer with fire-retardant function. Depending on the materials and finishes, we can produce wood slat acoustic panels with a fire rating up to Class B, in accordance with European standard.

---

## EASY INSTALLATION

Installation of acoustic panels can be done with minimal construction skills, DIY.
